- Gross Weight Increase STC and Flight Manual Supplement  
[ + 415 lbs. Useful load ] [ GW 6,350 lbs. up to 6,765 lbs. ] [ Ramp Wt. to 6,800 lbs. ]

## Installation and Set-up

- Each aircraft receives a detailed preflight and flight inspection to ensure airworthiness and to document performance of instruments, flight controls, landing gear, accessories, lights, and avionics.
- Discrepancies are brought to customer's attention. Unairworthy items must be repaired at customer's expense during RAM proceedings in order for RAM to set up, fly, and deliver the finished product.
- Old engines are removed. Engine beds are cleaned. Mount structures are inspected and corrosion treated. Four hours labor per engine is standard.
- Due to its tendency to contaminate the engine oil supply, if installed, the propeller unfeathering accumulators will be disabled unless optionally replaced with a newer unit. Prop Unfeathering Accumulator: \$875 / each - OHE
- Applicable RAM R.O.I. Installation Parts and Upgrade Kit are installed.
- Engines installed and set up, involving multiple flights and fuel.
- Aircraft washed and interior cleaned prior to delivery and customer acceptance.

## Prop Option

- New McCauley C-515 *Sabre Tip* propellers - NE: Add additional \$6,060 to package cost.  
[ Substitution In lieu of new Hartzell Propellers ]  
[ Includes de-ice boots - New ]  
[ without new spinner & bulkheads - reuse customer's ]

## Cessna 414 - Series VI
